Chennai, Tamil Nadu

PROFESSIONAL SUMMARY

Software Developer with strong knowledge in Core Java, **OOP**, Collections Framework, Exception Handling, **JDBC**, and Multithreading. **Familiar with Spring Boot**, RESTful APIs, JPA, Hibernate, MySQL, and Git. Skilled in developing Java-based applications, database design, **CRUD operations**, and software development lifecycle (SDLC). Passionate about backend development and eager to contribute to scalable and secure application development.

EDUCATION

Mahendra Institute of Technology, Namakkal.

NOV 2022 - MAY 2026

Electronics and Communication Engineering: CGPA: 7.15

SKILLS SUMMARY

- **Frontend:** HTML, CSS, JavaScript, Bootstrap, React.js
- **Backend:** Java, Advanced Java, Spring Boot
- **Concepts:** OOPS Concepts, Collection Framework, Exception Handling, Java 8 Features (Streams, Lamba), File Handling, Multithreading, Hibernate, REST APIs
- **Database:** MySQL
- **Tool:** Git, GitHub, VS Code, Eclipse

INTERNSHIP AND CERTIFICATIONS

Login360 – Java Full Stack Development Training

March 26 - Present

- Learned Core Java, Spring Boot, REST APIs, JDBC, and MySQL through practical development training.
- Developed backend applications and implemented CRUD operations using Java and Spring Boot.
- Worked with database connectivity, SQL queries, and RESTful API integration concepts.
- Used Git/GitHub for version control and applied debugging and SDLC practices in projects.

PROJECTS

Student Management System | Core Java, JDBC, MySQL

- Developed a Student Management System using Core Java, JDBC, and Object-Oriented Programming concepts.
- Implemented CRUD operations such as student registration, record updates, student details retrieval, and record deletion.
- Utilized JDBC and SQL queries for database connectivity and efficient management of student information.
- Applied Exception Handling and Collections Framework to ensure reliable data processing and application performance.

Banking Management System | Core Java

- Developed a console-based Banking Management System using Core Java and OOP concepts.
- Implemented account creation, deposit, withdrawal, balance enquiry, and PIN verification features.
- Used File Handling as a database alternative for storing and managing customer records.
- Applied Exception Handling and Collections Framework for efficient data management.

Personal Portfolio Website | HTML & CSS

- Developed a responsive personal portfolio website using HTML5 and CSS3.
- Designed modern UI layouts using Flexbox, CSS Grid, and Media Queries.
- Created sections for projects, technical skills, education, and contact information.
- Improved webpage responsiveness and user experience using modern CSS styling techniques.
